

The Punos Project in brief:

Of key importance in the development work of the Punos Project is to connect electronic local communication technology with video conferencing. The aim is to create a communication system, which verbally impaired people can use in both close and remote communication.

Further information on the project can be found at the website of the Honkalampi Foundation www.honkalampisaatio.fi.

Video material, amongst other things, is being produced for the website and some of the material there will be translated into English during the summer of 2009.

The project is managed by the Honkalampi Foundation and funded by the Finnish Slot Machine Association (RAY).

It is running from 1 April 2009 to 30 March 2011.

The Punos Project is based at:

Honkalampi Foundation

Niskakatu 21, Joensuu

Finland

Working on the project are:

Erkki Piironen

Project Manager

erkki.piironen@hl-s.fi
